Title	:	**From OpenSIGLE to OpenGrey : Changes and Continuity**
Author(s)	:	Christiane Stock and Nathalie Henrot, INIST-CNRS (France)
Session Three		
Paper 1		

First presented at the GL8 conference in New Orleans 2006 as a prototype, OpenSIGLE went life in December 2007. After 3 years of existence, the results are beyond all expectations. OpenSIGLE has become a reference source for grey literature, and its user community has grown constantly, especially from outside Europe. The integration of the GL conference preprints into the repository from 2008 onwards not only added research papers on the topic of grey literature to its contents, but also permitted OpenSIGLE to be accepted in the "Directory of Open Access Repositories" (OpenDOAR).

In spite of the success of OpenSIGLE it's not wise to rest on one's laurels. The change of name to "OpenGrey" signifies a shift in the content of the repository as well as in its physical appearance. Besides providing a new look and a more convenient technological environment, OpenGrey closes the gap between the close of the SIGLE database and today, including recent records and links to the full text. The paper presents the new website which includes numerous facilities requested by users such as OAI-PMH, the possibility to export records and an improved access to the document itself. OpenGrey also takes into account a changed user behaviour, where visitors arrive after searching Google or Google Scholar and want all relevant information at a glance. The paper further explains input procedures and gives other information for the ongoing updates of the repository. Finally we call former SIGLE members and new partners to contribute to OpenGrey.

The costs for the development of the new website are entirely supported by INIST and part of ongoing activities.

Bionote(s)

Nathalie Henrot graduated in History, then in Information Sciences from the University of Tours in 1988. She has been working for the INIST-CNRS for seventeen years, more specifically at the Monographs & Grey Literature Section from 1993, for congress proceedings acquisition. She is now the user administrator in the OpenSIGLE project. Email: henrotn@inist.fr

Christiane Stock is the Head of the Monographs and Grey Literature service at INIST, in charge of the repositories LARA (reports), mémSIC (master's theses in information sciences) and OpenSIGLE. Member of the Technical Committee for the SIGLE database from 1993 to 2005, she also set up the national agency for ISRN (International
