GL13 Final Call for Papers
Thirteenth International Conference on Grey Literature

The Grey Circuit, From Social Networking to Wealth Creation
http://www.textrelease.com/gl13callforpapers.html

On April 10th 2011, the Call for Papers closes and on April 28th, the Program Committee will meet at the New York Academy of Medicine to evaluate the abstracts submitted and finalize this year’s Conference Program. Participants who seek to present a paper at GL13 are now invited to submit an English abstract between 300-400 words. The abstract should deal with the problem/goal, the research method/procedure, an indication of costs related to the project, as well as anticipated results of their research. The abstract should likewise include the title of the proposed paper, topics most suited to the paper, the name(s) of the author(s), and full address information. Abstracts are the only tangible source that allows the Program Committee to guarantee content and balance in the conference program. Every effort should be made to reflect the content of your work in the abstract submitted.
