

Tear Sheet 4

Collections of Conference based Papers 1993-2008

(Date of Access, May 2010)

GreyNet has signed on to the OpenSIGLE Repository and in so doing seeks to preserve and make openly accessible research results originating in the International Conference Series on Grey Literature. GreyNet together with INIST-CNRS have designed the format for a metadata record, which encompasses standardized PDF attachments of the full-text conference preprints, PowerPoint presentations, abstracts and biographical notes. The past six consecutive years (2003-2008) of conference papers are now available in the OpenSIGLE Repository. Recently, GreyNet (data provider) and INIST (service provider) have begun the retrospective input of earlier conference based research (1993-2000) into OpenSIGLE
