"Recipient of the Louise Darling Medal 2008 for Distinguished Achievement in Collection Development in the Health Sciences"

The New York Academy of Medicine, an Associate Member of GreyNet, has signed-on as sponsor of GL¹⁰. This marks the fifth year straight that NYAM sponsors the International Conference Series on Grey Literature. NYAM is one of the foremost-recognized organizations in the field of grey literature. The Academy Library seeks new ways to offer and enhance access to quality health information.

Today, NYAM looks to initiate and support new technologies and services that improve the access to health for its wide audience of researchers, students, Academy Fellows, and the general public. The Grey Literature Report, a bimonthly web-based publication along with the detailed guide to organizations and agencies producing grey literature in the fields of Health Policy and Public Health are but two examples of this.
